

About Us

RAIL SAFETY TALKS

Learning how to stay safe when travelling on the railway is an essential part of growing up.

Our dedicated facility at Margate has been created for young people to develop the confidence, behaviours and independence to travel safely when using the railway.

We can also come to any school in KENT and deliver assemblies suitable for all ages, together with workshops aimed at ages 9-12.

Why not book a school visit to the TSTS Centre in Margate; your pupils will love it and learn so much...

Feedback from visitors to TSTS Margate

01.

My students really benefitted from the trip today. I liked how flexible Dan and Sanchez were and the way they engaged my pupils. I think they had it just about right and the way they allowed me and my staff to intervene (as we know them best and what we want them to learn). They were a good double act too.

Paul Ursell - Laleham Gap School

02.

Thank you very much for all your help on the trip. The school had a wonderful time and experience.

Andy Place - St Edwards Primary School Sheerness

03.

We had a session in the morning and one in the afternoon and we all loved the trip; both adults and kids! It was incredibly well run and well organised and the children learnt an awful lot from it whilst having fun at the same time. They talked about it quite a bit once we got back to school.

I would certainly recommend the trip to other schools and will do so when I meet other schools.

Tom - Upton Primary School Broadstairs.

04.

My students enjoyed the perfect level offered. Often such workshops are either too easy or too hard, this workshop was just right. Knowing how to get help if needed was important to know. Couldn't fault a thing.

Broadstairs College

05.

The activities and seeing the inside of the train were extremely beneficial to my students. They had a great day out and learnt a lot.

Zac - St Nicolas School

06.

'Oak class had a fabulous time. We all came back to school feeling a lot more knowledgeable about the steps to being safe near railway tracks. The activities provided were engaging and everyone thoroughly enjoyed their time spent at Margate train station. Thank you very much once again to the great team who made our class trip so enjoyable and educational'.

Michelle Crowe - Halstow Primary Sittingbourne

07.

They made the learning fun and engaging for the children, used lots of ways to deliver the message; face to face - tour of the station - games to recap information and learning.

Year 6 Lead - Sandwich Junior School

08.

Extremely engaging. The person organising the trip with us (Nicola) was very flexible, efficient and accommodating. As we are dealing with sensitive issues, we needed a level of control over the material presented and we got that.

Paul Ursell - Laleham Gap

Its all FREE.....

Any questions feel free to ask?

We also provide free train travel to our Centre for your school! Making getting from A-B completely free!
