

Moving Pictures

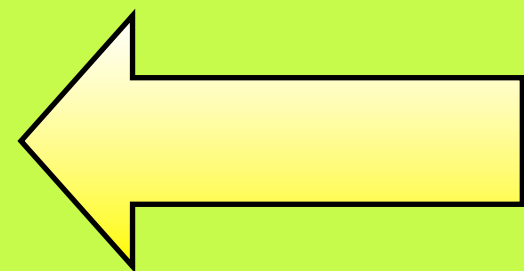

Today we will be...

Following our designs to make our moving pictures.

Get out your designs
for your moving
pictures. Look at your
design carefully so you
know what you have
to do...

Today you will be making your moving pictures from your designs. What do you think we need to be thinking about as we are making our moving pictures?

Think, pair, share your ideas.

You will be using lots of sharp objects today as you make your moving pictures. You need to remember to stay in your places as much as you can. If you do need to move around, walk slowly and sensibly so you do not hurt anyone or get hurt yourself.

How else can we make sure we stay safe when we are making our moving pictures?
