- Rowhill recognises that any learner can be vulnerable online, and vulnerability can fluctuate depending on their age, developmental stage and personal circumstances. However, there

are some learners, for example looked after children and those with special educational needs, who may be more susceptible or may have less support in staying safe online.

- School will ensure that differentiated and appropriate online safety education, access and support is provided to vulnerable learners. Learners have discreet online safety lessons which is complimented with the PSHCE curriculum online safety modules.

 - If a criminal offence has been committed, the DSL (or deputy) will discuss this with the police first to ensure that investigations are not compromised.
 - review the handling of any incidents to ensure that best practice was implemented, and policies/procedures are appropriate.

- Rowhill recognises that internet brings the potential for the impact of any sexual violence and sexual harassment concerns to extend further than the local community, and for a victim or alleged perpetrator to become marginalised and excluded by online communities.
- Rowhill recognises the potential for repeat victimisation in the future if abusive content continues to exist somewhere online.
- To help minimise concerns, school will ensure that all members of the community are made aware of the potential social, psychological and criminal consequences of online sexual violence and sexual harassment by implementing a range of age and ability appropriate educational methods as part of our curriculum.

 - review the handling of any incidents to ensure that best practice was implemented; the leadership team will also review and update any management procedures, where necessary.

Acceptable Use of Technology for Staff, Visitors and Volunteers

Staff Acceptable Use of Technology Policy

As a professional organisation with responsibility for safeguarding, all members of staff are expected to use Rowhill IT systems in a professional, lawful, and ethical manner. To ensure that members of staff understand their professional responsibilities when using technology and provide appropriate curriculum opportunities for learners, they are asked to read and sign the staff Acceptable Use of Technology Policy (AUP).

Our AUP is not intended to unduly limit the ways in which members of staff teach or use technology professionally, or indeed how they use the internet personally, however the AUP will help ensure that all staff understand Rowhill expectations regarding safe and responsible technology use, and can manage the potential risks posed. The AUP will also help to ensure that Rowhill systems are protected from any accidental or deliberate misuse which could put the safety and security of our systems or members of the community at risk.

Policy Scope

1. I understand that this AUP applies to my use of technology systems and services provided to me or accessed as part of my role within Rowhill both professionally and personally. This may include use of laptops, mobile phones, tablets, digital cameras and email as well as IT networks, data and data storage and online and offline communication technologies
2. I understand that Rowhill's Acceptable Use of Technology Policy (AUP) should be read and followed in line with the school staff behaviour policy/code of conduct.
3. I am aware that this AUP does not provide an exhaustive list; all staff should ensure that technology use is consistent with the school ethos, school staff behaviour and safeguarding policies, national and local education and child protection guidance, and the law.

Data and System Security

6. To prevent unauthorised access to systems or personal data, I will not leave any information system unattended without first logging out or securing/locking access.
 - I will use a 'strong' password to access school systems. A strong password has numbers, letters and symbols, with 8 or more characters, does not contain a dictionary word and is only used on one system. Leaders should include any specific requirements, for example, how often passwords should be changed etc.
 - I will protect the devices in my care from unapproved access or theft. All devices must be kept locked away in an office or the staff room. No phones allowed in classrooms.
7. I will respect school's system security and will not disclose my password or security information to others.
